

Whirlwind
by Donovan

Like a river she's flowing into my life, my life
Like a river she's flowing into my life, my life

Wind is blowing all around her head
Into the distance she stared
Wind is blowing all around her head
Into the distance she stared

Like a surfer she's blowing into my life, my life
Like a surfer she's blowing into my life, my life

Whirlwind blowing all around our love
Into to the mystic above
Whirlwind blowing all around our love
Into to the mystic above

Like a quiver she's glowing into my life, my life
Like a quiver she's glowing into my life, my life

Whirlwind blowing all around our love
Into to the mystic above
Whirlwind blowing all around our love
Into to the mystic above
