When your heart gets restless,
                               time to move along
                                                      Bb
                           Cm
                     Eb
                                              Gm
                             time to sing a song
When your heart gets weary,
                            Ab
           Eb
              Eb7
But when a dream is calling you,
                                      Eb
                                          Ab Eb [break]
                 Eb
                       Ab
There's just one thing that you can do
             Ab
You've gotta follow that dream wherever that dream may lead

                         Gm

             Cm
                                   Ab
You've gotta follow that dream to find the love you need

                          E
                                 Α
Keep a-movin, move along, keep a moving
               E
                                                  E
Got to find me someone whose heart is free
                               G#m
           Е
                   C#m
Someone to look for my dream with me

                                  A E [break]
                   Α
Just what my dreams are all about
I've got to follow that dream wherever that dream may lead

                                                 E
                                                        Α
I've got to follow that dream to find the love I need
I-I-I've got to follow that dream wherever that dream may lead
            C#m
                        G#m
                                           В

Keep a-movin, move along
              C#m
Keep a-movin, move along
