B E B  
 When the sun goes down on the other side of town tonight  
 E A E B  
 And the world is asleep dreaming in the deep moonlight  
 B F# B  
 I'll slip away in the shadows out of your life  
 B  
 You don't want me anymore  
 E B  
 So I'll close the door when I leave  
 E A E B  
 My bags are packed and I'll give you back your keys  
 F# B  
 You keep your ring and I'll keep your memory  
 E A E B  
 But in my dreams at night oh oh  
 F# B  
 Everything will work out right  
 E A E B  
 Cause I'll still hold you tight in my dreams  
 E B  
 Well it's hard to take when love breaks down and dies  
 E A E B  
 But it's better to quit than to sit each nite and cry  
 F# B  
 I'd rather know the truth than to live thru a life of lies  
 E A E B  
 But in my dreams at night oh oh  
 F# B  
 Everything will work out right  
 E A E B  
 Cause I'll still hold you tight in my dreams

## SOLO

A E B E  
 Maybe it's for the best to give this love of ours a rest  
 E F# B  
 But I'll come running back if you want me  
 E B  
 Well bye bye baby it seems that we're all thru  
 E A E B  
 You sure know how to make this little girl blue  
 F# B  
 When you say you don't want the things I can do for you  
 E A E B  
 But in my dreams at night oh oh  
 F# B  
 Everything will work out right  
 E A E B  
 Cause I'll still hold you tight in my dreams
