B  
 I heard the train  
           E  
 In the Tulsa night  
  
 Calling out my name  
           B  
 Lookng for a fight  
 E  
 She's come a long long way  
                           B  
 Got a longer way to go  
           A  
 So tell me how a train from Tulsa  
                           B  
 Has got a right to know  
 B  
 Well she sings a song  
           E  
 So sad and high  
  
 And the Tulsa Queen  
           B  
 Don't ever lie  
 E  
 And she don't care where she goes  
                           B  
 Don't care where she's been  
           A  
 And the Tulsa Queen ain't crying  
                           B  
 Cause I won't see you again  
           E  
 And I want to ride  
  
 Like a Tulsa Queen  
           B  
 Calling out to you  
  
 Like she calls to me  
 A  
 As far away from Tulsa  
                           B  
 As these ten wheels can be  
  
 SOLO  
  
 B  
 Lately I speak  
           E  
 Your name too loud  
  
 Each time it comes up  
           B  
 In a crowd  
 E  
 And I know it when I do

The Tulsa Queen and you            B  
A    B    E            B    A    B            E            B    A    B    E    B    A    B  
Are gone
