Good People

Good People

(FGCG) C-FCFC/C-GC/C-GF/C-F-

Good people I will sing to you
This song came to me sleeping
And it's a thank you for the love you share
And the friends that we're keeping

Oh, I've tasted wine while all alone
And as one friend among others
But by far the cups we've overturned
Together they were sweeter

And if its ever from me you must go
Or your life you must surrender
Do not have a thought that you'll be lost
For its you I will remember

Oh, I am a poor and simple man
And my favorite dream of any
Is that faster shall my spirit rise
With my hands and pockets empty

Good people I will sing to you
This song came to me dreaming
And its a thank you for the love you share
And the friends that we're keeping.
