

I've Seen That Look On Me (A Thousand Times)  
Album: Something Special

It's 4 a.m. and you're just gettin' in  
You're first night out  
I won't ask you where you've been  
You're so ashamed in you're eyes  
Can't beat mine  
I've seen that look on me a thousand times

What makes us do the things we do  
Heaven only knows  
We think we've got a secret  
But it always shows  
I've taught you how to cheat  
You're doin' fine  
I've seen taht look on me a thousand times

But I sstill love you  
And so I pretend and hope I never see that look again  
But if I do I know the fault is mine  
I've seen that look on me a thousand times

What makes us do the things we do  
Heaven only knows  
We think we've got a secret  
But it always shows  
I've taught you how to cheat  
You're doin' fine  
I've seen taht look on me a thousand times

I've seen that look on me a thousand times
