

## **Past The Point Of Rescue**

Am G  
Last night I dreamed you were back again  
F C G Am  
Larger then life again,holding me tight again  
Am G  
Placing those same kisses on my brow  
F C G Am  
Sweeter than ever now Lord I remember how  
G Am  
Couldn't get enough of kissing do you know how much I'm missing  
G D7  
No you dont ,but I do

(Chorus)

C F C  
But I do,and I wonder if I'm past the point of rescue  
F C Am G Am  
Is no word from you at all the best that you can do  
G  
I never meant to push or shove you  
Am  
Do you know how much I love you  
G D7  
No you dont,but I do.

Days like a slow train trickle by  
Even the words I write refuse to fly  
All that I can hear is your song haunting me  
Can't get the memory out of my head you see  
Distractions I've been using  
Do you know how much your losing  
No you dont,but I do

I swore I'd never fall like this again  
But fools like me never win, came to my knees again  
Can't close the door  
on the likelyhood  
That things might be just as good, always believed they would  
Got to let your love invite, do you  
think they might be  
No you don't, but I do
