Belfast

Of all the places I have been there's only one to fill my dreams  
The place that lingers in my mind is the one I left behind  
I've been away now for to many years  
I've read all the papers, they told of your tears  
Tho' I've left you with a heart thats been torn  
I'm coming home now to the place I was born  
That's Belfast - you call to me  
When I am far away I think of thee  
Your black mountain, cavehill, city hall  
Shaw's bridge, river Langan, I'm going home to them all

(BREAK)

I'll meet friends and relations, each one I'll embrace  
We'll pass round the pictures which time can erase  
And it won, it be long now 'til I see them all  
Then I'll walk round the old streets and good times I'll recall  
That's Belfast - you call to me  
When I am far away I think of thee  
Your Black Mountain, Cavehill, City Hall  
Shaw's Bridge, Liver Langan, I'm going home to them all
