

## If I Could-crđ

(D) (Am7/D) (G/D) (D) (Am7/D) (G/D) (D)

If I could sing like the poets and kings of this world  
 If I could rise like the wind o'er the tides of the sea  
 (G/D) I would sing you to (A) sleep my love with (D) sweet melody  
 (G/D) And let you (A) dream away till the (D) morning light (G/D) returned  
 again  
 To (A) take you away from (Asus4) me

If I could speak with the tongues of the masters of old  
 If I could tame all the fleeting perceptions I hold  
 Would I stand in the marketplace before you  
 To be shouted down without any warning at all, to be stood by the wall  
 And shot by the man in blue

If I could run with the grace of a sun colored stallion  
 If I could fly like the great silver jets in the morning  
 If I caused the wind to change with one wave of my hand  
 And if I could play the final symphony and set it free  
 Would it mean anything to you

If I could stand like the rusty old man in his armour  
 If I could ride the steed that he rode in his time  
 I would turn his head away to the river  
 And let him wander through the meadow grass, wild and free  
 For everyone to see

(Repeat 1st verse)
