My little love moving in my soul, my little love who will never turn cold
 It doesn't matter if I ain't shaved, it doesn't matter if I ain't behaved

My little love you been on my side, helping me keep, turning the tide
 Have a hard time living right now, having a fine time showing you how

My little love from the world out there, helping me keep adoining my share
 Come and meet me by the neon light, and I'm hoping you will make it alright

I'll do anything you see fit, my little love

My little love you been on my mind, my little love who is never unkind
 I'm a poet and I'm better off dead, these are the words she said

Down by the breadline picking up dough, hand me the guitar, there I'll go
 It doesn't matter if I ain't shaved, or it don't matter if I ain't behaved

I got a light that is in my soul, I got a love that'll never turn cold
 Come and meet me by the neon tonight, and I'm hoping you will make it
 alright

I'll do anything you see fit, my little love
 I'll do anything you see fit, my little love
