

AFTER I SING ALL MY SONGS

When the show is over and every one is gone
That's when this lonely feelin' comes along
Everybody loves me while the show is goin' on
But I need someone to love me after I sing all my songs.

I smile and face the music while they just cheer me on
But this empty feeling keep on holdin' on
Lord I wish I had somebody just to be my only one
I need someone to hold me after I sing all my songs.

After I sing my songs, after the crowd is gone
I need someone to hold me after I sing all my songs.

After I sing my songs, after the crowd is gone
I need someone to hold me after I sing all my songs...
