

Chill Factor

(G) Seems like every (Am) November
When the weather turns (G) bad
I start to (Am) remember
The good times we (G) had
And the long nights get (C) longer
Wish an old friend would drop (G) by
The forecast is (Am) zero
And the chill factors (G) high
The chill factors (C) high
On a cold windy (G) day
Theres no wind this (Am) morning
And no wind on the (G) way
Theres a snowstorm (C) inside me
With record high (G) wind
And i'm colder this (Am) morning
Than i've ever (G) been
Seems like every (Am) november
When the weather turns (G) bad
I start to (Am) remember
The good love we (G) had
And the long nights get (C) longer
Wish an old friend would drop (G) by
The forecast is (Am) zero
And the chill factors (G) high
