

ROSES IN THE WINTER

We'll have roses in the winter
We'll have good times with the bad
We'll have roses in the winter
Love is all we have to have

There'll be a garden every season
'Cause love makes the sun shine every day
We'll be blessed with spring forever
With love and roses all the way

If we keep saying all the right words
And keep our harmony in tune
We'll find roses in the winter
We won't have to wait till June

We'll find roses in the winter
We'll have good times with the bad
We'll have roses in the winter
Love is all we have to have
