

Somebody Else You've Known
 Written and recorded by Merle Haggard

C G7
 I've always been the kinda guy that didn't love a lot
 I took all the love they offered me with ease
 And it didn't make much difference if they loved me or not
 Cause I'd love 'em for a while then I'd leave

Yeah I can't believe it's really me hurting like I do
 Just because you left me all alone

I've seen it happen many times to other guys you knew
 Surely I must be somebody else you've known

G7
 Well when I first met you darling you impressed me more than some
 I should have took the warning way back then
 But I never stopped to think it that even my day had to come
 And like the other guys I want you back again

Repeat #2

G7 C
 Surely I must be somebody else you've known
