

White Line Fever

CHORUS:

D G D D A D
 White Line Fever a Sickness born down deep within my soul
 D G D D A D D7
 White Line Fever the Years keep flyin' by like the high line poles

VERSE:

G A D
 The wrinkles in my forehead show the miles I've left behind me
 G A
 They continue to remind me How fast I'm growin' old
 D
 Guess I'll die with this fever in my soul.

BRIDGE:

A D
 Well, I wonder just what makes a man keep pushin' on
 A D
 Why must I keep on singin' this old highway song.
 G A D
 I've been from coast to coast a hundred times or more,
 G A D
 And I ain't seen one place that I ain't been before.

[CHORUS]

[solo over verse]

[BRIDGE]

[CHORUS]
