

Keep The Change-crd

By Phil Ochs

A A7
 Now I'd like to lay here in the night
 A Bm
 Now I'd like to linger in the light
 D
 Wishing not to move
 C#m
 I have nothing left to prove
 D E A G A
 But did I hear you asking was it wrong or right

chorus D E F#m
 Oh, If you feel a little strange
 Bm E A
 Please have the memory and keep the change

Now I'd like to hover in a hole
 Where silence is the singer of the soul
 I have no games to play
 I have no lines to say
 But someone's taking surveys on a passion poll

Pretending every worry has all gone
 Now I'd like to drift into the dawn
 As simple as it seems (?) (Pleasures are endowed)?
 Changing thoughts around to dreams (?) (Lying lazy as a cloud)?
 But did I hear the stifling of a sleepless yawn

Now I'd like to dangle in a dream
 A cavalier who's courting to the queen
 Hopelessly insane (As tender as the trees)?
 Running ragged through the rain (I only wish to please)?
 But someone's directing lovers on a silver screen

Now I'd live to hide behind a hand
 It's too late for leaving footprints on the sand
 Willing/Chilling (?) is the wine (Gentle as the air)?
 I've surrendered to the time (There's a stillness to be shared)?
 But someone is insisting that they understand
 (But someone's disappearing into weird demand)?

Now you've heard the story of the skin
 All the ashtrays have been powdered to the brim
 I'd only like to fall
 Watching whispers on the wall
 But someone's making up the bed and defining sin
