SILVER BIRCH AND WEEPING WILLOW
Ralph McTell

Silver birch and weeping willow
Gliding swan and circling swallow
I'm standing here, watching the sun go down
And I'm wondering if she will come.

Silver birch and weeping willow
Heather bed and bracken pillow
I'm sitting here, watching the sun go down
And I don't think that she will come.

Lying here watching the sun sink
Change the river, turn the swans pink.
Laying here watching the sun go down
And I don't care at all, if she don't come.

Silver birch and weeping willow.
