

I'll Believe It When I Feel It  
Album:Whoever's In New England  
Reba McEntire

Now when you left everybody told me  
That I'd find another to take the place of you  
And they all said someone else would hold me  
And I'd have a lover to love like I loved you

I'll believe it when I feel it  
When somebody makes me feel the way you did  
They say he's out there  
They tell me someday I'll forget  
I'll believe it when I feel it  
But I haven't felt it yet

I've heard in time  
Time is going to heal me  
It's been forever  
And I still need you now  
Maybe I will someday find that feeling  
We had together  
Oh but I've got my doubts

I'll believe it when I feel it  
When somebody makes me feel the way you did  
They say he's out there  
They tell me someday I'll forget  
I'll believe it when I feel it  
But I haven't felt it yet

I'll believe it when I felt  
But I haven't felt it yet
