

## Around The World

Words & Music by Harold Adamson & Victor Young

Recorded by Montovani, 1957

Main theme from the movie "Around the World in 80 Days," 1956

G                    D7                    G6                    G  
Around the world I've searched for you;

                  G6                    Fdim  
I traveled on when hope was gone

                  Am7            D7  
To keep a rendezvous.

          Am7            D7                    Am7            D7  
I knew somewhere, sometime, somehow,

                  Am                    D9  
You'd look at me and I would see

                  G6    G            D7  
The smile you're smiling now.

          G                    D7            G6            G  
It might have been in County Down,

                  G6                    Fdim  
Or in New York, or gay Paree,

                  Am  
Or even London town.

          C6                    Gdim                    G    Bm7-5    E  
No more will I go all around the world

          (E7)            Am7            D7            G  
For I have found my world in you.
