

Cherry Pink And Apple Blossom White  
Words & Music by Jacques Larue & Louiguy (Louis Gugliemi)  
English lyrics by Mack David  
Recorded by Alan Dale, 1955

D                    Bm                    Em7            A7  
It's cherry pink and apple blossom white

Em7                    A7                    D  
When your true lover comes your way;

D                    Bm                    Em7            G/B    A7            D  
It's cherry pink and apple blossom white, the poets say.

D                    Bm                    Em7            A7  
The story goes that once a cherry tree

Em7                    A7                    D  
Beside an apple tree did grow;

D                    Bm                    Em7            G/B    A7    Em7    A7    D  
And there a boy once met his bride-to-be long long a - go.

Bridge:

D6                    A7                    Gdim            D  
The boy looked into her eyes -- it was a sight to enthral.

A7/6                    A7                    Gdim            D  
The breezes joined in their sighs, the blossoms started to fall,

D6                    A7                    Gdim            D  
And as they gently carressed, the lovers looked up to find

A7/6                    A7                    D  
The branches of the two trees were intertwined.

D                    Bm                    Em7            A7  
And that is why the poets always write

Em7                    A7                    D  
If there's a new moon bright above,

D                    Bm                    Em7            G/B    A7    Em7    A7    D  
It's cherry pink and apple blossom white when you're in love.
