

Time Between chords
The Byrds 1967 (Chris Hillman) *

E A 2x

B7
Don't say you love me, don't say you care;

you're so far away

B7
Telephone communication, only a three minute elation;
when I hear your voice

Through love and trust it's gonna work out fine

The only pain I feel is all this time between,
you and me, you and me

B7
All the days have turned to years, only emphasize my fears;
since you said goodbye

B7
I can hear your voice at night, I can read the words you write;
it's only love

Through love and trust it's gonna work out fine

The only pain I feel is all this time between,
you and me, you and me

B7
Now don't say you love me, don't say you care;
you're so far away

B7
I can hear your voice at night, I can read the words you write;
it's only love

Through love and trust it's gonna work out fine

The only pain I feel is all this time between,
you and me, you and me

Through love and trust it's gonna work out fine

The only pain I feel is all this time between,
you and me, you and me

You and me

* Alternate:

Capo II

B7 = A7
