Simple, sweet and pretty is the girl that I adore:
Absence makes the heart more fond, I love her more and more;
We write each other letters almost ev'ryday;
'Twas hard to part from her dear heart, to cheer me now I say:

Chorus.

"I know some one who's thinking of me,
I know some one who'll Constant be,
Whether I am roaming on land or sea,
I know some one who's thinking of me."

We both live in a village, and the factories all closed down,
With, not enough to wed her, then. I started for this town.
I've been out here almost a year, and never lost a day;
To-night I journey home again, and sing to her this lay:-Chorus.
