

Dance dance dance

Everybody's groovin' on the floor now
Feet's movin, think they're gonna dance
The band is playing as you walk in that door now
Come on now, won't you take that chance
I said come on now won't you mama
Come on won't you take that chance
There ain't none of us gonna hound you
Aint nothing too it, let your body go and
Dance, dance, dance
Dance, dance, dance

It dont take no concentration
And I swear it's a miracle cure
Its as good as some more medication
When you get out there on the floor
Come on now won't you mama
Ahhh won't you take that chance
Now remember the night beneath the pale moon light
When you had a few beers and you were hanging loose
Lets go crazy, shot like a deuce
Dance, dance, dance
Dance, dance, dance

Ahhh won't you come on home now

Dance floor, stop go, round and round
Feels so fine in summertime, once you try it you ain't fall down
Fast slow, stop go, around and around
Feels so fine in summertime, once you try it you ain't fall down
Fast slow, stop go, around and around
Feels so fine in summertime, once you try it you ain't fall down

Everybody's movin on the floor now
Feet's groovin, think they're gonna dance
The bands is playing as you walk through the door
The music's got you hooked in a trance
Come on now, won't you mama
Come on won't you take that chance
There ain't none of us gonna harm you
Aint nothing too it, let your body go and
Dance, dance, dance
Dance, dance, dance
Dance, dance, dance
Dance, dance
Dance, dance, dance
