

Get it on

I need your lovin'
I said I want your lovin'
I need you every minute of the day now
Girl listen what I say
Get it on in the morning now

I want you when the moon shines bright
I said I want you
When the time is right now
I need you all through the night now
There are feelings I can't hide
Get it on in the morning now

I'm gonna tell you just what I'm gonna do
I'm gonna make love to you
I got a feeling that just won't quit
Let's get on girl now this is it
Get it on in the morning now

It's gonna be
It's gonna be
It's gonna be
Just you and me

I got to get it on
I got to get it on
I got to get it on
I got to get it on
I got to get it on
I got to get it on
I got to get it on
I got to get it on
I got to get it on

I'm gonna tell you just what I'm gonna do
I'm gonna make love to you
I got a feeling that just won't quit
Said now come girl now this is it
I said get it on in the morning now

It's gonna be
It's gonna be
It's gonna be
Just you and me in ecstasy
