

## Lonely night in the park

Johnnys got an angel dancing topless at night  
 Down in toyland  
 Where the blondies and the supergirls  
 Hopin to say look whos talking  
 And if youre looking for someone to steal your heart  
 Someone tough enough to take it  
 Someone to keep it or to tear it apart  
 Someone to love you, someone to fake it  
 Lonely night in the park  
 Oh, lonely night in the park  
 Lonely, lonely, lonely, lonely night  
 Oh, lonely, lonely, lonely, lonely night in the park  
 Some dudes at the door gave her trouble  
 Theres a lady at the bar in a trance  
 Slipped off your stool and you step through the rubble  
 This is your chance youre gonna take it  
 If she cant dance she can make it  
 She takes off her shoes and runs down the beach  
 Oh, shes as soft as the night  
 You fall as she crawls within your reach  
 Youre joggin down on the sand and try to make it all right  
 Ohhh  
 Lonely night in the park  
 Oh, lonely night in the park  
 Lonely, lonely, lonely, lonely night  
 Lonely, lonely, lonely, lonely night in the park  
 And the boardwalk is so quiet at three-in-the-morning  
 Lonely wind beams life into aint very sweet

Sunlight in the distance seems so boring  
 We turn ravage with no secrets to reveal  
 Oh, watch yourself know  
 Well the bars closed down  
 And the lonesome Armies they run for cover  
 The lost boys and their pickups  
 Man they hate each other  
 And youre drinking neath the pier with Kid Blue  
 Ah, kid gets sick and throws up on your shoes  
 And youre thinking of making it home  
 But your mom cant see you like this all alone  
 Youre walking down the street and no one knows your name  
 Standing on the corner lookin for the light to change  
 Sittin on the ticket line by line, line by line  
 Theyve got nothing left but time  
 Lonely night in the park  
 Lonely night in the park  
 Lonely night in the park  
 Lonely, lonely night  
 Hey little stranger, whatcha doin tonight?  
 Lonely, lonely, lonely, lonely night  
 Lonely, lonely, lonely, lonely night  
 Lonely, lonely, lonely, lonely night  
 Lonely, lonely, lonely, lonely night  
 Lonely, lonely, lonely, lonely night  
 Lonely, lonely, lonely, lonely night  
 Lonely, lonely, lonely, lonely night  
 Lonely, lonely, lonely, lonely night  
 Lonely, lonely, lonely, lonely night
