

Talk to me  
by Southside Johnny

Well every night I see a light shine in your window  
And every night you don't answer when I come knocking at your door  
Well your daddy won't ever let me in  
And I see from the street your silhouette sitting close to him  
What must I do, what does it take, to get you to

Ah talk to me, well until the night's over  
Little girl won't you talk to me, well until the night's over  
Yeah yeah I got a full week's pay  
And, baby, I've been working hard each day  
I'm not asking for the world, you see  
I'm just asking, girl, talk to me

Well now late at night I hear the music softly playing  
And late at night I see the two of you softly swaying  
I don't understand darling what was my sin  
Why am I down here below, your arms are open to him  
What did I do, what did I say, what must I pay, to get you to

Talk to me, well until the night's over  
Little girl won't you talk to me, just until it's all over  
Yeah yeah yeah I got a full week's pay  
And baby I've been working hard each day  
I'm not asking for the world, you see  
I'm just asking darling, talk to me  
Whoa alright

I don't understand darling what was my sin  
Why am I down here below and your arms are open to him  
What did I do, what did I say, what must I pay, to get you to

Talk to me, just until the night's over  
Little girl won't you talk to me, well, until the night's over  
Yeah yeah yeah I got a full week's pay  
And baby I've been working hard each day  
I'm not asking for the world, you see  
Oh I'm just, well I'm just asking, darling, please  
And baby I'm down on my knees, to get you to

Talk to me, well until the night's over  
Little girl won't you talk to me until it's all over  
Come on darling and talk to me, well until it's all over  
Little girl won't you talk to me, well until it's all over  
Well I wanna say yeah! yeah! yeah! yeah!
