Goin' to the circus and I had a lot of fun.  
Looking at the clowns, they were funny on the run.  
Little baby elephant, riding in a car.  
Mama pushed it far behind, she didn't get too far.

CHORUS:

F  
The circus is in town, now.  
C  
The circus is in town, now.  
F  
The circus is in town, now.

Let's go to the circus!

A clown came up & jumped upon his trunk.  
Flipped over the elephant's head and landed in some junk.  
The tigers and the lions, roaring in their cage.  
With a hoop on fire, they were all the rage.

CHORUS:

A dragon flew by, it was such a funny sight.  
The horses in the ring jumped and laughed with all their might.  
The man in the trapeze, he tumbled through the air.  
I had such a good time, I still wish I was there.

CHORUS:
