

About The South

D
Fried pickles, drunk chicken, craw fishing in the creek

Wild turkey, deer jerky tough as Tarzan's feet

G
Hot women skinny swimmin', barely belly button deep

D
Turn muddy river water into sweet, sweet tea

A G
Hayloft lovin' in the holler behind the house

D
No doubt about what I love about the south

D
Loretta Lynn, maker's mark, that's Kentucky as can be

Jack Daniels, Dolly Parton, oh the hills of Tennessee

G
Finger pickin', bluegrass blowing in the wind around here

D
We believe the book of John and we drive John Deeres

A G
The devil came to Georgia, Mr. Daniels showed him out

D
No doubt about it what I love about the south

(Chorus)

G
What I love about the south

D
If you need a Dixie Fix just come on down

G
That's what I love about the south

A
Southern bells with a drawl

G
Make you stop and drop your jaw

Bm G
Come on ya'll shut your mouth
That's what I love about the south

D
Grew up down here and it's where I'll grow my kids

Old McDonald had a daughter, get her done got her did

G D
Corn grows in rows on a cob but it flows from a jar
In a rocky top bar

A

A little fountain from the mountain

G

Even made the possum shout

D

That's what I love about the south

(Repeat chorus)
