

# All The Way With You

Words and music by John Prine and Gary Nicholson

INTRO:

**GEmCDGD**

**G**                    **Em**  
Love Gives. Love Takes.

**C**                    **G**                    **D**

It takes a lot of lucky breaks

**G**                    **Em**

Lucky Strikes. Lucky stars

**C**                    **G**                    **D**

I don't know how I got this far

**C**                    **D**

Who knows where it's coming from

**G**                    **C**

Or where it's going to

**C**                    **D**                    **G D**

Can I go all the way with you?

**G**                    **Em**

You have your way. You have your doubts

**C**                    **G**                    **D**

The falling in. The falling out.

**G**                    **Em**

A bridge is built. A bridge is burned.

**C**                    **G**                    **D**

Till you reach the point of no return

**C**                    **D**

Don't know where we're coming from

**G**                    **C**

Or where we're going to

**C**                    **D**                    **G**

Can I go all the way with you?

**D**                    **C**                    **G**

Heaven knows that this ain't nothing new

**D**                    **C G D**

God knows how much I love you

**G**                    **Em**

Love comes. Love goes.

**C**                    **D**                    **G**

Can I go all the way with you?

**C**                    **D(Tacet) G**

Can I go all the way with you?
