

Gravity

G C D
I left home when I was seventeen

G C D
I just grew tired of falling down

Em C
And I'm sure I was told

Em C
The allure of the road
D DDsusD
Would be all I found

G C D
And all the answers that I started with

G C D
Turned out questions in the end

Em C
So years roll on by

Em C
And just like the sky

D
The road never ends

(Chorus)

Em D C
And the people who love me still ask me

Em D C
When are you coming back to town

G C
And I answer quite frankly

Bm C
When they stop building roads

G D G
And all God needs is gravity to hold me down

BREAK: G C D G C D Em C Em Em7 D 2x

(Chorus)

Em D C
And the people who love me still ask me

Em D C
When are you coming back to town

G C
And I answer quite frankly

Bm C
When they stop building roads

G D G
And there ain't no more highways to be found
