

Bluegrass Songs - Lyrics

Across the sea blue

I'm going across the deep blue sea
In this country, tell me
I'm all alone so sad and blue
My every thought is just fo you

In these long years that I spent here
I onely wish that you were here
To the dizzy fog and a mist of rain
I can see you strolling right down the lane

* Refrain

Someday darling I will return
Then our hearts will no longer yearn
things will be just like before
Just your and I forever more

* refrain
