Calm the storm

Come and calm (Calm this raging storm)
The storm for me (Calm the storm for me)
Roll the clouds (roll those heavy storm clouds)
Out of the way (All the clouds away)
Make me see (See the light that's shining)
The blessed light (See the blessed lighthouse)

When you calm (When you calm)
The storm for me

All my life I've heard the story
About a man from Galilee
How he calmed the raging river
And he walked the stormy sea
I can feel the winds a-blowing
Here upon my bended knees
So I'm callin' out to you, Lord
Come and calm the sea for me

* Refrain

Shining through the angry waves
(The angry waves)

Just as long (Long as you're the captain)
As you're the captain (captain of this vessel)
When my ship (When my battered ship)

Is lost at sea (Ship is lost at sea)
Then I know (then I'll surely know)
I'll reeach the harbor (Soon I'll reach the harbor)
When you calm (When you calm)
The storm for me
