Can't stay here anymore

You know that I can't stay here anymore
I'm leaving away from this old town for sure
You made me out to be a fool now there's nothing left to do
You know that I can't stay here anymore

There's rumour that you've been running 'round
It's now become the gossip of the town
I can't hold up my head no more so I'm walking out that door
You know that I can't stay here anymore

* Refrain

I've been working hard everyday
Trying to make a better way
It makes no difference what I do there ain't no way to pleasing you
You know I can't stay here anymore

* Refrain
