Dog bite your hide

Now, hnoney, you know you ain't living right
You sleep all day and you're gone all night
Dog bite your hide, little hide, dog bite your hide
Like a black cats back you're full of fire
You're always jumping here and there
Dog bite your hide, little hide, I hope you're satisfied

Now all the things that you have done
Has killed my soul, made my spirits run
Dog bite your hide, little hide, dog bite your hide
And if you don't stop your playing around
I'm gonna tear your ash hopper down
Dog bite your hide, little hide, then I'll be satisfied

Now, honey, you think that you're just it
Cause you made me have a running fit
Dog bite your hide, little hide, dog bite your hide
But my craw is full, I'm leavin' you
My gizzard's cracked, I'm feelin' blue
Dog bite your hide, little hide, then I'll be satisfied

I'm gonna tear your reputation down
Gonna cut a wide swath for miles around
Dog bite your hide, little hide, dog bite your hide
Then I'm gonna stand around and laugh
When you roll your eyes like a dying calf
Dog bite your hide, little hide, then I'll be satisfied
