

**The fallen eagle**

Singing the fallen eagle  
Fill the copter smile  
Chasing round the mountain  
Chasing till they born  
They say that it's just sporting  
Shooting them on the wing  
The world around 'em clatters  
You can hear the mountains ring  
Hear their song, it won't be long

Singing the western ranges  
The eagle takes his land  
He's got a thousand mothers  
Hit off near the dam  
Get up with the sunrise  
Everybody gather around  
Get in with the first shot  
Ther're to bring you down  
Down, down, crash on the ground

Singing the noble eagle  
Help is on the way  
The government team of experts  
Is rusing to your aid  
I know you're noe excited  
An eagle is no way  
Fly up to Canada  
This country isn't sane  
Anymore, that's for sure
