Forget me not

Oh my lady, sweet love of mine
Forget me not while I'm away
Across the blue slow rollin' ocean
I will return to you some day

Through the4 dark and dreary night
I dreamed I held you here beside me
When I awoke I heard behind me
The sound of guns and distant drums

Forget me not,I feel so 'lone lost and lonely, like a child
May be I just need to see somebody smile

Are you thinking of all the times
When we were runnin' on through the green fields
My eyes are closed, still I see the green fields
They seem to sing, they seem to sing

Forget me not, I feel so 'lone lost and lonely, like a child
May be I just need to see someday smile
