**God's highway**

There's a highway up in heaven and the streets are all pure gold  
There'll be shouting there forever in the home land fo the soul  
I shall meet with all my loved ones and the saints gone on before  
On that highway up in heaven on that peaceful golden shore

Oh, I'll walk down heavens highway some sweet day  
And I know I'll hear my blessed savior say  
Welcome to your home in heaven that I have prepared for you  
For your cares and worries now on earth are through

I'll be singing with the angels in those mansions there on high  
Be at home with my dear Savior, never more to say goodbye  
Then again I'll see my monm and daddy who went on before  
Walk through glory shouting, singing on God's highway ever more
