Gone and left me blues

My weary heart for you is crying
Getting old and playing for its dues
For you have left me oh so lonely
I've got those gone and left me blues

You know that we should be together
Though I'm the one that's been untrue
Please take me back and say you love me
I got those gone and left me blues

I might have known that you'd be leaving
I knew you'd bourne your walking shoes
Why did you break those vows of promise
And bring about those awful blues

Don't say that you have gone forever
The nights are much to lonely now
Alone I hope that you'll return dear
I've got to get you back some how
