

**Bluegrass Songs - Lyrics**  
**www.traditionalmusic.co.uk**

**I just think I'll go away**

It makes no difference where I wander  
No matter what I say or do  
I can't out live this memory of you  
And I cry dear when I think of you

Somehow you wouldn't let me love you  
The plans we made have gone astray  
Instead of being blue and lonely  
I just Think I'll go away

It seems we both could have been happy  
If things had only truned out right  
From now on each day I'll think about you  
And I'll dream of you dear every night

\* Refrain
