I'm gonna make it after all

Well, I've been walked on and I've been stepped on
I've been kicked when I was down
Honey I've been too tied treated unkind
I've been hard and pushed around
And I thought I'd never find love
Till one day you came along
Now I'm a new man and I've got a feeling
I'm gonna make it after all

I've strolled I guess down the road of happiness
Where all my things or times I recall
Now I'm a new man and I've got a feeling
I'm gonna make it after all

I've been fooled and led behind
Honey I've been shaking it was shaking
Just when I found love was mine
And I'm long so used to thinking
Love would never come along
You found me girl and I believe girl
I'm gonna make it after all

* Refrain
