Long white line

I won't be around this old town anymore for a long long time
Gonna hit the road and start looking for end of that long white line
Gonna hit the road and start looking for end of that long white line

I walk up my baby was gone without her I don't need no home
Gonna hit the road and start looking for end of that long white line
Gonna hit the road and start looking for end of that long white line

Went to bank to get my dough I don't care where I go
Gonna push this rig till I push that gal right out of my mind
If somebody wants to know whats become of this so and so
You can tell em I'm somewhere looking for the end of this long white line
Just tell em somewhere looking fot the end of that long white line

New York City old St. Joe Alburque New Mexico
This old rig is humming and rolling she's doing fine
If somebody wants to know whats become of this so and so
You can tell em I'm somewhere looking fot the end of that long white line
Just tell em I'm somewhere looking fot the end of that long white line

New York City old St. Joe Alburque New Mexico
This old rig is humming and rolling she's doing fine
If somebody wants to know whats become of this so and so
You can tell em I'm somewhere looking fot the end of that long white line
Just tell em I'm somewhere looking fot the end of that long white line

I won't be around this old town anymore for a long long time

Gonna hit the road and start looking for end of that long white line
Gonna hit the road and start looking for end of that long white line
