**Love call waltz**

The music played so sweetly  
While I held you close you close to me  
The memory of your love  
I can't erase  
It was there, I kissed you gently  
And you whispered tenderly  
I love you and I'll treasure every phrase  
The moon, looked down so lonesome  
And a night bird, whistled low  
It seemed, the stars enchanted  
Then did fall  
It seemed, a perfect picture  
While the shadows round us fell  
I fell in love  
While they played, the love call waltz
