**Love me one more time**

That night we parted long ago  
I vowed my love I'd never show  
Sweetheart I find that I can't hide  
My love beneath this foolish pride

If I could hold you one more time  
And kiss thte lips that once were mine  
It would ease this aching heartt of mine  
If you would say you love me one more time

Oh won't you take me back once more  
Give me the love I'm longing for  
It would ease this aching heart of mine  
If you would say you love me one more time

\* Refrain
