

Bluegrass Songs - Lyrics

My night to howl

Well I've been working all week long
But tonight is wine, women and song
Gonna get me a jug get away from it all
Gotta pocket full of money and I'm feeling mean
Gonna give this town something it ain't see
This country boy is really gonna have a ball

I'm gonna play loud music
Gonna drink hard liquor
Gonna chase wild women
Tonight's my night to howl

Well I'm gonna be where there's lights and smoke
Ain't gonna home til I'm flat broke
Gonna trun this town ever way but loose
Turn the juke box up til I can't think
Mr.bartender bring another drink
Cause I may wind up sleeping in the calaboose

* Refrain
