

**Remembering**

Remembering me dear when your love meant everything  
When the memory of your kiss remains with me  
I thought we'd be so happy dear there together through the years  
Now I'm left here all alone, remember me

Remember me the day we met, and wondering  
If you ever really loved and cared for me  
In our future you and me left it all in memory  
But I relived oe'r and oe'r remember me

If the world could only know the many things  
That have made my aching heart look longingly  
In the days spent happily when alone just you and me  
Such a lovely past I see, remember me

Remembering the words you said and didn't mean  
I believed with all my heart you wanted me  
I guess my thoughts were right of schemes for you found someone new it seems  
I hope some day I find you here, remembering
