**Thanks for all the yesterday**

Thanks of all the yesterday  
Memories are all I need any way  
They'll guide me whn I'm lonely every step of the way  
Thanks for all the yesterday

The first time I met you, oh what a surprise  
To feel love and to see love reflected in your eyes  
But time and not love has played the biggest part  
For us there's no tommorrow just a pair fo broken heart

\* Refrain

Thanks for all the yesterday
