**While I'm reading your letter**

Tonight while I'm reading your letter  
You tell me you're going far away  
I love you my darling yes I love you  
I love you where ever you stray

I can see your blue eyes smiling for me  
And they sparkle like no others do  
You told me once you'd always love me  
You said that you'd always be true

\* Refrain

If ever you are lonely little darling  
And no one has taken my place  
Remember my darling I still love you  
And long for your sweet smiling face

\* Refrain
