

ON THE LINE  
(Richie Furay)

The story is true I'm in love with you  
I've fallen I realize  
Maybe you will and maybe you won't  
But a dreamer will always try

Holdin' back ain't with the fact  
And then say that's how it goes  
Later on when the words are songs  
I'm feelin' a love I suppose

Oh, lay it out on the line  
I know that you will  
You and the way that you love me  
What a thrill, yeah

You're my baby, yeah  
My woman, move me still  
You got something all your own  
In the world it's called free will

You know I can't deny you what comes inside you  
I never ever would  
But it's hard believin' you're not receivin'  
All the gods' love that you could

Come on and lay it out on the line  
I know that you will  
You and the way that you love me  
What a thrill (lay it out on the line)

Oh, lay it out on the line  
I know that you will  
You and the way that you love me  
What a thrill

Come on and lay it out on the line  
I know that you will  
You and the way that you love me  
What a thrill (lay it out on the line)

Come on and lay it out on the line  
I know that you will (I know that you will)  
You and the way that you love me  
What a thrill (lay it out on the line) Oooh
