

Great Song In The Sky, The
by Donovan

Let us try to keep in rhythm with the rolling of our hills
For I'm sure it is the remedy to clear up all our ills
And we'll seal a bond of family, communion of wills
As we're arc-ing on our way, infinity
As we're arc-ing on our way, infinity.

Let us try to keep in harmony with every deed we do
For we are, you know, one and the same that I reveal to you
There's a silent subtle secret between every entity
As we're arc-ing on our way, infinity.

Sing the great song of the sky, friend, with me, oh yeah
Sing the great song of the sky, friend, with me, oh yeah
Sing the great song of the sky, friend, with me, oh yeah
Sing the great song of the sky, friend, with me.

Di, di, di ...

Sing the great song of the sky, friend, with me, oh yeah
Sing the great song of the sky, friend, with me, oh yeah
Sing the great song of the sky, friend, with me, oh yeah
Sing the great song of the sky, friend, with me.

Let us try to keep in step with the changing of our times
And we'll let a good clean wind blow through the cobwebs in our minds
And embrace the Age of Atoms using wisely all we find
As we're arc-ing on our way, infinity.

Sing the great song of the sky, friend, with me, oh yeah
Sing the great song of the sky, friend, with me, oh yeah
Sing the great song of the sky, friend, with me, oh yeah
Sing the great song of the sky, friend, with me.
