

Lady Of The Flowers  
by Donovan

Your hair blows  
The grass grows  
Sun yellow cloudless blue  
Can't you tell  
Green Angel  
How I love you.

She's my Lady of the Flowers  
She's a sweet herb with a healing way.  
She's my Lady of the Flowers

Your hand plays  
With Daises  
Birds sing and butterflies  
Lips like wine  
Mellowtime  
In paradise

Chorus:

Lover O Lover

Reveal Beloved  
Hidden ecstasy  
Lady of Seven veils  
Administer love to me

Before thy temple  
Of inner sanctuary  
I lay my burden down  
And rest beneath your tree

Lover O Lover lead me within  
Lover O Lover lead me within

Sister of Succor  
Your kiss is my balm  
With your wand you bid  
The Beast in me be calm

Arise Serpent arise  
Come out your fairy lair  
Dance for the maiden with  
The moonlight in her hair

Lover O Lover lead me within
